Join FOGSI in revolutionizing quality maternal care

**BUILD YOUR TEAM'S CAPACITY TO DELIVER CONSISTENT, SAFE, AND RESPECTFUL CARE DURING AND AFTER CHILDBIRTH**

20 clinical standards customised for Indian maternity providers

Adhering to evidence-based protocols WHO's quality care benchmarks

**AN AWARD-WINNING AND GLOBALLY RECOGNISED INITIATIVE!**

## MANYATA BENEFITS FOR YOU

### 1. Empowering Your Team:

- Training on 20 (16 existing + 4 new) standards to enhance basic clinical practices, ensuring high-quality patient care.
- Equipping your staff with essential skills to efficiently manage obstetric complications like PPH, Eclampsia, etc.
- Lesser patient referrals to higher centres due to a stronger team of trained nurses.

### 2. Enhancing Patient Satisfaction:

- Providing soft skills training to ensure staff delivers respectful, compassionate, and dignified maternal care.
- Quality services attract more patients, enhance patient loyalty, and contribute to practice expansion.

### 3. Receiving Medicolegal Support:

- Receiving training on detailed case management and documentation, ensuring accurate record-keeping.
- Benefitting from FOGSI's assistance in case of medico-legal issues, ensuring comprehensive support.

### 4. Improving Regulatory Compliance:

- Enhancing compliance with regulatory requirements, increasing the facility's likelihood of additional accreditations like NABH and NQAS.

### 5. Part of the Inner Manyata Circle:

- Exclusive access to Manyata Quality Circles and events for knowledge enhancement and networking.
- Continual learning with unlimited access to training modules and resources via Safe Delivery App, Aastrika platform, and Manyata website.

### 6. Certification offers a competitive advantage over non-certified peers, boosting reputation and trust.

## MANYATA CLINICAL STANDARDS

- Provider screens for key clinical conditions that may lead to complications during pregnancy.
- Provider prepares for safe care during delivery (to be checked every day).
- Provider assesses all pregnant women at admission.
- Provider conducts PV examination appropriately.
- Provider monitors the progress of labor appropriately.
- Provider ensures respectful and supportive care.
- Provider assists the pregnant woman to have a safe and clean birth.

- Provider performs Active Management of Third Stage of Labor (AMTSL).
- Provider identifies and manages Postpartum Hemorrhage (PPH).
- Provider identifies and manages severe Pre-eclampsia/Eclampsia (PE/E).
- Provider performs newborn resuscitation if baby does not cry immediately after birth.
- Provider ensures care of small and vulnerable newborns at birth.
- The facility adheres to universal infection prevention protocols.
- Provider ensures adequate postpartum care package is offered to the mother and baby – at discharge.
- Provider reviews clinical practices related to C-section at regular intervals.
- Provider delivers HDU care to obstetric patients with advanced care needs.
- Provider ensures screening and timely referral of mothers with mental health concerns.
- Provider ensures safe surgery in the facility.
- Provider ensures complete medicolegal documentation.

## HEAR FROM YOUR PEERS !

**There is a swift turnaround time in complication management.**

Recently, a non-ANC patient admitted in a seizure state received swift management. Despite the absence of a doctor, our nursing assistant promptly assessed and administered necessary magnesium sulfate injections, stabilizing the patient with dangerously high blood pressure due to eclampsia. Our nursing team demonstrates efficiency in both, daily practices and complex case management, thanks to Manyata trainings.

**Dr. Sana Iqbal**  
Medison Hospital & Blood Bank, Lucknow

**Manyata trainings have enhanced patient case management.**

My facility staff has improved their patient documentation, which has established accountability and strengthened service delivery. The case management sheets are filled in a timely manner with detailed inputs on patient's medical history. This has helped in a stronger risk mitigation approach for our facility, built the confidence of my team, particularly during emergencies.

**Dr. Aruna Khalko**  
Faith and Felix Hospital, Khunti

## UNIQUE FEATURES OF OUR PROGRAM:

Comprehensive Quality Improvement (training) package

Quality Assurance by FOGSI-certified assessors
